Industry Overview: Disaster Remediation

Complete Clean in Less Time = More Profit

Cold Jet.

A Faster, Better Clean.

When disaster strikes, the demand for immediate clean-up follows. Whether fire, smoke, water or mold damage, traditional cleaning methods are time consuming and tedious, not to mention ineffective for complete removal. Dry ice blasting is up to three times faster than traditional methods and provides a more thorough clean, even in tight angles of trusses and around nails and wiring. In addition, dry ice blasting achieves 100% mold spore removal from wood.

Discover Cold Jet.

Contact Cold Jet today to speak with an industry expert and choose the best cleaning solution for your application. Call **1.800.337.9423** or visit us online at **www.coldjet.com** to learn more.

APPLICATIONS

- Fire and Smoke Restoration
- Mold Remediation
- Odor Elimination
- Water Damage

KEY BENEFITS

- Reduce cleaning time
- Reduce labor requirements
- No secondary waste
- Chemical free process
- 100% mold spore removal on wood
- Removes odor from fire damage
- Environmentally responsible

REFERENCES

"Cold Jet's equipment is bar none the best cleaning quality we can achieve. Coatings and deodorizers are used at a minimum because it eliminates 100% of the charred wood, of the carbon which houses the smell."
Tom Monacelli

* Upon contact, traditional blasting materials become contaminated when used to clean hazardous substances and objects. These blasting materials are then classified as toxic waste and require appropriate safe disposal.
